

Data Retention Policy

Prepared by	Rob McCorkell, LDE UTC
Date Approved by the Board	11 October 2018
Date Policy was last reviewed or updated	September 2018
Version	1.0
Date of next Board review and approval	October 2021

DATA RETENTION POLICY

The College has a responsibility to maintain its records and record keeping systems. When doing this, the College will take account of the following factors: -

- The most efficient and effective way of storing records and information;
- The confidential nature of the records and information stored;
- The security of the record systems used;
- Privacy and disclosure; and
- Their accessibility.

This policy does not form part of any employee's contract of employment and is not intended to have contractual effect. It does, however, reflect the College's current practice, the requirements of current legislation and best practice and guidance. It may be amended by the College from time to time and any changes will be notified to employees within one month of the date on which the change is intended to take effect. The College may also vary any parts of this procedure, including any time limits, as appropriate in any case.

DATA PROTECTION

This policy sets out how long employment-related and learner data will normally be held by us and when that information will be confidentially destroyed in compliance with the terms of the General Data Protection Regulation (GDPR) and the Freedom of Information Act 2000.

Data will be stored and processed to allow for the efficient operation of the College. The College's Data Protection Policy outlines its duties and obligations under the GDPR.

RETENTION SCHEDULE

Information (hard copy and electronic) will be retained for at least the period specified in the attached retention schedule. When managing records, the College will adhere to the standard retention times listed within that schedule.

Paper records will be regularly monitored by The Head of Management Information Services.

Electronic records will be regularly monitored by the IT Service Delivery Manager and the Head of Management Information Services.

The schedule is a relatively lengthy document listing the many types of records used by the College and the applicable retention periods for each record type. The retention periods are based on business needs and legal requirements.

DESTRUCTION OF RECORDS

Where records have been identified for destruction they should be disposed of in an appropriate way. All information must be reviewed before destruction to determine whether there are special factors that mean destruction should be delayed, such as potential litigation, complaints or grievances.

All paper records containing personal information, or sensitive policy information should be shredded before disposal where possible. All other paper records should be disposed of by an appropriate waste paper merchant. All electronic information will be deleted. The College will maintain a database of records which have been destroyed and who authorised their destruction. When destroying documents, the appropriate staff member should record in this list at least: -

- File reference (or other unique identifier);
- File title/description;
- Number of files; and
- Name of the authorising officer.

ARCHIVING

Where records have been identified as being worthy of preservation over the longer term, arrangements should be made to transfer the records to the archives. A database of the records sent to the archives is maintained by the Head of Management Information Services. The appropriate staff member, when archiving documents should record in this list the following information: -

- File reference (or other unique identifier);
- File title/description;
- Number of files; and
- Name of the authorising officer.

TRANSFERRING INFORMATION TO OTHER MEDIA

Where lengthy retention periods have been allocated to records, members of staff may wish to consider converting paper records to other media such as digital media or virtual storage centres (such as cloud storage). The lifespan of the media and the ability to migrate data where necessary should always be considered.

RESPONSIBILITY AND MONITORING

The Head of Management Information Services has primary and day-to-day responsibility for implementing this Policy. The Data Protection Officer, in conjunction with the College is responsible for monitoring its use and effectiveness and dealing with any queries on its interpretation. The data protection officer will consider the suitability and adequacy of this policy and report improvements directly to management.

Internal control systems and procedures will be subject to regular audits to provide assurance that they are effective in creating, maintaining and removing records.

Management at all levels are responsible for ensuring those reporting to them are made aware of and understand this Policy and are given adequate and regular training on it.

RETENTION SCHEDULE

FILE DESCRIPTION	RETENTION PERIOD	
Employment Records		
Job applications and interview records of unsuccessful candidates	Six months after notifying unsuccessful candidates, unless the College has applicants' consent to keep their CVs for future reference.
