

Abdoulaye Taylor

Assistant Head of Year for KS3/4

For college I was chosen to do football scholarship after completing a trial face, after completing the course I wanted to go into mentoring, so I joined Tradewind and Sanza HLTA (High Learning Teaching assistant), supporting students learning and development in a 1-2-1 and group settings, which enabled me to become a better mentor to the learners. These experiences will be key for my role at London Design and Engineering UTC. I believe every Learner has the right to learn and every child matters hence why I chose to work for LDE UTC as I believe all staff play a huge role in a learner's development and these learners are the future leaders.
