

Aminul Islam-Teacher of English

After graduating with a BA in English from the Queen Mary University of London, I decided to begin my career in teaching, this led me to complete my PGCE at the University of Sussex through a SCITT. My passion for literature and my desire to create a difference for young individuals stimulated my interest in teaching at the secondary level. Young people are always looking for innovative opportunities and I hope my enthusiasm for Literature, ambitious work ethic, and resilience can motivate our learners into their own career pathways.

Joining LDE UTC as an ECT 1 will build my confidence and with the guided support, motivation, and determination, I hope to become a successful and influential teacher.
